#### आदरणीय शेयरधनी महानुभावहरु :

यस एनएमबि लघुवित्त वित्तीय संस्था लिमिटेडको बाह्रौँ वार्षिक साधारण सभामा संस्थाको सञ्चालक समितिको तर्फबाट उपस्थित सम्पुर्ण शेयरधनी महानुभावहरुलाई हार्दिक स्वागत तथा अभिवादन गर्दछु। यस समारोहमा यहाँहरुलाई आज स्वागत गर्न पाउँदा म लगायत यस संस्थाको सञ्चालक समितको सबै सदस्यहरु हर्षित भएका छौ। यस संस्थाको आर्थिक वर्ष २०८०/०८१ मा भएका कारोबारको समिक्षा गरी भावि नीति तर्जुमा र योजना कार्यान्वयन गर्न यहाँहरुले सदाभौँ मार्गदर्शन गर्नुहुनेछ भन्ने आशा एवं विश्वास लिएको छु।

विश्व अर्थतन्त्र सन् २०२५ को जून महिनासम्म आइपुग्दा निकै सुस्त, अस्थिर र चुनौतीपूर्ण अवस्थामा पुगेको छ । विश्व बैंकले हालै विश्वको आर्थिक वृद्धिदर २.७ प्रतिशतबाट घटाएर २.३ प्रतिशतमा भारेको छ, जुन पछिल्लो छ दशककै सबैभन्दा कमजोर आर्थिक वृद्धि मानिएको छ । अमेरिका-चीनबीचको व्यापार तनाव, युक्तेन-रुस युद्धको लम्बिँदो प्रभाव, इजरायल-इरान द्वन्द्वका कारण बढ्दो भू-राजनीतिक अस्थिरता, र उच्च मुद्रास्फीतिका कारण विश्व बजारमा लगानी, व्यापार, र उपभोग घट्दो क्रममा छन् । यस्ता विश्वव्यापी आर्थिक उतारचढावले नेपालजस्ता तेस्रो विश्वका विकासोन्मुख मुलुकहरूमा प्रत्यक्ष असर पारिरहेको छ ।

खाडी मुलुकलगायत अन्य रोजगार गन्तव्य देशहरूमा आर्थिक सुस्तीले नेपाली श्रमिकको मागमा कमी ल्याउने सम्भावना छ, जसको प्रत्यक्ष असर रेमिट्यान्स प्रवाहमा पर्न सक्नेछ । साथै, अन्तर्राष्ट्रिय बजारमा उपभोक्ता खर्च घट्दो कममा रहेकाले नेपालको हस्तकला, कपडा, तथा अन्य निर्यात वस्तुहरूको मागमा गिरावट आएको छ । पर्यटन क्षेत्र पनि प्रभावित भएको छ, यद्यपि दक्षिण एसियाली मुलुकहरूसँगको सहकार्य र आन्तरिक पर्यटन प्रवर्द्धनले केही हदसम्म सुधारको संकेत दिएको छ ।

विश्व अर्थतन्त्र र नेपाली अर्थबजारमा देखा परेका यिनै चुनौतीहरु जस्तै संस्थाले बिगतका २ आर्थिकमा बिभिन्न चुनौतीहरु सामना गरेता पनि हाल संतोषजनक कार्य गर्न सकेको जानकारी गराउन पाउँदा मलाई हर्ष लागेको छ । स्थापनाकाल देखि करिब १२ वर्षको अवधिमा नेपालका १,२१,२०१।- भन्दा बढी घरपरिवारका विशेषगरी महिला दिदि बहिनीहरुलाई सहज लघुवित्तीय पहूँच पुऱ्याउन सफल यस संस्थाको हाल नेपालका ६८ जिल्लामा १४८ शाखा कार्यालयहरु रहेका छन् । आ.व. २०८०/८१ को अन्त्य सम्ममा संस्थाले १,२१,२०१ सदस्यहरुबाट रु. १,३३,३४,७६,३२७-(अक्षरुपी एक अरव तेत्तिस करोड चौतिस लाख छयाहत्तर हजार तिन सय सत्ताईस रुपैया) बचत संकलन गरेको छ भने ३१,२२६ ऋणीलाई रु ४,४०,२०,२६,४४९।-(अक्षरुपी पाँच अरव पचास करोड बिस लाख छबिस हजार पाच सय उनान्पचास रुपैंया मात्र) ऋण लगानी गरी बर्षको अन्त्यमा रु (४,२९,१६,३१४)।-(अक्षरुपी पाच करोड उनन्तिस लाख सोह्र हजार तीन सय चौध रुपैंया मात्र) खुद नोक्सन व्यहोर्नु परेको जानकारी शेयरधनि महानुभावहरुलाई गराउँन चाहान्छु । २०८९ अषाढ मसान्तमा वित्तीय संस्थाको चुक्ता पुँजी रु ७२,१४,४९,१४९।- (अक्षरुपी बहत्तर करोड चौध लाख उनान्पचास हजार एक सय उनान्पचास रुपैंया मात्र) रहेको र यस बर्ष बोनस शेयर वितरण गर्न नसकिने जानकारी गराउदै वित्तीय संस्थाको जारी तथा चुक्ता पुँजी रु ७२,१४,४९,१४९।- (अक्षरुपी बहत्तर करो८ चौध लाख उनान्पचास हजार एक सय उनान्पचास रुपैया मात्र) नै रहने व्यहोरा समेत जानकारी गराउँदछु ।

संस्थाको सेवामा विस्तार, ग्राहकहरु सगँको पहुँचमा वृद्धि गर्न कारोबारको लागतमा नियन्त्रण राख्न, जोखिम व्यवस्थापन गर्न प्रविधिको महत्वपुर्ण भुमिका रहेको व्यहोरा हामीले यस वित्तीय संस्थाका अघिल्ला वार्षिक साधारण सभामा निबेदन गर्दै आएको यहाँहरुलाई समेत स्मरण नै होला । सोही अनुरुप हामीले केही महत्वपूर्ण निर्णयहरु कार्यन्वयन समेत गरी सकेको व्यहोरा यहाँहरुलाई जानकारी गराउन चाहान्छौ । हामीले आ. व. २०८०।०८१ र हाल सम्ममा यस संस्थाको Server Capacity दोव्वर गरिसकेका छौ भने कर्जा प्रकृया तथा ग्राहकहरुको खाता खोल्नुका साथै ग्राहक पहिचान सम्बन्धी कार्यहरुलाई प्रविधिको माध्यमबाट Automate (स्वचालित) गरिसकेका छौ । यस्तै केही Digitization का परियोजनाहरु हाल प्रगतिमा रहेको र आगामी दिनहरुमा यस्मा समेत निश्चित रुपम प्रगति हुने व्यहोरा यहाँहरुलाई जानकारी सहित विश्वास दिलाउन चाहान्छौ ।

NMB Laghubitta Bittiya Sanstha Ltd. 2 बैकबाट "घ" वर्गको इजाजतपत्र प्राप्त संस्था (राष्ट्रिय स्तरको कार्यक्षेत्र भएको) 

#### राष्ट्रिय तथा अन्तर्राष्ट्रिय परिस्थितिबाट कम्पनीको कारोवारमा परेको असर

लघुवित्त संस्थाहरु देशको ग्रामीण तथा कमजोर आर्थिक वर्गमा वित्तीय पहुँच पुऱ्याउने मुख्य माध्यम भएकाले, राष्ट्रिय तथा अन्तर्राष्ट्रिय परिस्थितिले तिनीहरूको कारोबारमा प्रत्यक्ष तथा परोक्ष दुबै असर पार्दछ । हालका वर्षहरूमा नेपालमा आर्थिक मन्दी, महँगी र बेरोजगारीको समस्या बढ्दै जाँदा ग्रामीण ग्राहकहरूको आय स्थायित्वमा गिरावट आएको छ । यसले लघुवित्तको कर्जा असुली दरमा नकारात्मक प्रभाव पार्न थालेको छ । ग्राहकहरुमा ऋण सदुपयोगिताको चेतनास्तर कम हुनु र वित्तीय संस्थाको ऋण नतिरेपनि छुट पाइने भन्ने विभिन्न समूहहरुले फैलाएको अफवाहका कारण ग्राहकहरु आफ्नो कारोवारलाई नियमित गर्न नखोजेको देखिन्छ । केही बित्तीय संस्थाहरुको आर्थिक अपचलनको समाचार नियमित रुपमा आँउदा आम मानिसहरुमा बित्तीय संस्था प्रतिको दृष्टिकोण फरक आउँदा त्यसले बचतसँगै समग्र कारोवारमा असर परेको छ । कर्जा गुणस्तर कायम गर्न तथा जोखिम व्यवस्थापन गर्न चुनौति बढदै गएको छ । साथै, राजनीतिक अस्थिरता, नीति परिवर्तनको अनिश्चितता जस्ता कारणले संस्था सञ्चालनमा जटिलता ल्याएको छ । प्राकृतिक प्रकोपहरू–जस्तै भूकम्प, बाढी, र पहिरो आदिले जीवनशैली प्रभावित बनाउँदा लघुवित्त संस्थाहरुका सेवाहरूको प्रभावकारितामा प्रभाव परेको देखिन्छ ।

त्यस्तै गरी, अन्तर्राष्ट्रिय परिस्थिति पनि कम चुनौतिपूर्ण छैन । वैश्विक आर्थिक संकट, कोभिड-१९ महामारीको असर लगायतले लघुवित्तका ग्राहकहरूको आयस्रोत घटाएको छ । डिजिटल प्रविधिको विकास विश्वभर तीव्र गतिमा भइरहेको भए तापनि, नेपालमा ग्रामीण क्षेत्रमा प्रविधिको पहुँच, साक्षरता र पूर्वाधारको अभावले लघुवित्तको डिजिटल परिवर्तनलाई कठिन बनाइरहेको छ ।

यसरी हेर्दा, राष्ट्रिय र अन्तर्राष्ट्रिय दुवै खालका वातावरणीय, आर्थिक, राजनीतिक तथा सामाजिक परिवेशहरूले लघुवित्त कम्पनीहरूको कारोवारमा महत्वपूर्ण असर पारिरहेका छन्। यी चुनौतिहरूसँग जुध्न संस्थाहरूले सशक्त रणनीति, नीति सुधार, प्रविधि समावेशीकरण, जोखिम व्यवस्थापन र दीर्घकालीन दिगोपनका उपायहरू अवलम्बन गर्न आवश्यक छ । विद्यमान चुनौतिहरुलाई न्यूनिकरण गर्नको लागि समयानुकुल उपायहरु अवलम्बन गरी संस्थाको जोखिम कम गर्न सञ्चालक समिति तथा व्यवस्थापन प्रयासरत रहेको छ ।

- दुर्गम क्षेत्रमा शाखा सञ्चालन गर्दा यातायात, कर्मचारी, प्रशासनिक खर्च धेरै हुने भएकाले सञ्चालन व्यय उच्च हुने गरेको छ ।

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Responsibilities of the Management and Those Charged with Governance for the Financial Statements Management is responsible for the preparation and fair presentation of the financial statements in accordance with Nepal Financial Reporting Standards (NFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the microfinance or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the company's financial reporting process.

#### Auditor' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up

> to the date of our auditor's report. However, future events of conditions may cause institution to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statement, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Report on Other Legal and Regulatory Requirements**

Report as per the requirements of Companies Act, 2063, Bank and Financial Institution Act, 2073 and other regulatory requirements:

- We have obtained all the information and the explanations, which, to the best of our knowledge and belief, were necessary for the purpose of our audit.
- Based on our audit, proper books of accounts as required by law have been kept by the <sup>1</sup>microfinance.
- The Statement of Financial Position, the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Cash Flows, and the Statement of Changes in Equity dealt with by this report are in agreement with the books of accounts maintained by the company.
- The capital fund, risk bearing fund and the provisions for possible impairment of assets of the company are adequate considering the Directives issued by Nepal Rastra Bank.
- In our opinion and to the best of our information and according to the explanations and from our examination of the books of accounts of the company, we have not come across any case where the Board of Directors or any office bearer of the company have acted contrary to the provisions of law, or committed any misappropriation or caused any loss or damage to the company and violated Directives issued by Nepal Rastra Bank or acted in a manner, as would jeopardize the interest and security of the company, its shareholders and its depositors.
- The business of the company has been conducted satisfactorily and operated within its jurisdiction and has been functioning as per NRB Directives.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognized in Statement of Profit and Loss. The net gain or loss recognized in Statement of Profit and Loss incorporates any interest paid on the financial liability and is included in the 'Other Income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other Comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in the fair value of Profit and Loss. The remaining amount of change in the fair value of liability is always recognized in Statement of Profit and Loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to Statement of profit and Loss.

# d) Financial liabilities subsequently measured at amortized cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortized cost at the end of subsequent accounting periods. The carrying amount of financial liabilities that are subsequently measured at amortized cost are determined based on the effective interest method. Interest expense that is not capitalized as part of cost of an asset is incorporated in the 'Finance Expenses' line item.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

# 3.3.4 De-recognition

# a. De-recognition of Financial Assets

The Financial Institution derecognizes a financial asset

- when the contractual rights to receive the cash flows from the financial asset expire; or when it transfers the financial asset in a transaction in which substantially all the risks
- when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred; or
- in which the Institution neither nor retains substantially the risks and rewards of ownership and
- it does not retain control of the financial asset.

Any interest in such transferred financial assets that qualified for de-recognition that is created or retained by the Financial Institution is recognized as a separate asset or liability. On derecognition of a financial asset, the difference between the carrying amount of the asset, and the sum of;

# a. The consideration received, and

# b. Any cumulative gain or loss that had been recognized in other comprehensive income is recognized in retained earnings.

The Financial institution enters into transactions whereby it transfers assets recognized on its Statement of Financial Position but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognized. Transfers of assets with retention of all or substantially all risks and rewards include, for example repurchase transactions.

# c. De-recognition of Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognized in Statement of Profit or Loss.

# 3.3.5 Determination of fair value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities carried at fair value or for which fair values are disclosed have been classified into three levels according to the observability of the significant inputs used to determine the fair values. Changes in the observability of significant valuation inputs during the reporting period may result in a transfer of assets and liabilities within the fair value hierarchy. The Microfinance recognizes transfers between levels of the fair value hierarchy when there is a significant change in either its principal market or the level of observability of the inputs to the valuation techniques at the end of the reporting period.

Level 1Fair value measurements are those derived from unadjusted quoted prices in active markets for identical assets or liabilities.

**Level 2**Valuations are those with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

**Level 3**Portfolios are those where at least one input, which could have a significant effect on the instrument's valuation, is not based on observable market data.

# 3.3.6 Impairment

#### a. Impairment of Loans and Advances

The Microfinance assesses its loans and advances at each reporting date to determine whether an impairment loss should be provided in the Statement of Profit or loss as per expected credit loss model which is compared with the loss provision prescribed by NRB directive no. 2. Accrued Interest Receivable on loans has been considered under Loans and Advances measured at Amortized Cost.

Loans to employees and its AIR provided according to the Employee Bylaws of the Microfinance are presented under this head. In particular, the Management's judgment is required in the estimation of the amount and timing of future cash flows when determining the impairment loss. These estimates are based on assumptions about several factors and hence actual results may differ, resulting in future changes to the provisions made.

The individual impairment provision applies to financial assets evaluated individually for impairment and is based on management's best estimate of the present value of the future cash flows that are expected to be received. In estimating these cash flows, management makes judgments about a borrower's financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimate of cash flows are considered recoverable.

Individual assessment of impairment of exposures means establishing whether objective evidence of impairment exists, estimation of the present value of future cash flows, and calculation of the value of impairment for each individual receivable from the borrower included in this assessment. No individual impairment has been considered for loans and advances of Microfinance as there are thousands of homogeneous loans and advances disbursed within maximum loan limit and no evidences of impairment can be observed individually.

The microfinance has considered impairment of all loans and advances on collective assessment basis and has categorized loans and advances on loan product types for this purpose. A collective impairment provision is established for:

- Groups of homogeneous loans and advances that are not considered individually significant; and
- Groups of assets that are individually significant but that were not found to be individually impaired

The collective provision for groups of homogeneous loans is established using statistical methods based on historical loss rate experience, Loss Given Default (LGD) and Probability of Default (PD) computed using the statistical analysis of historical data on delinquency to estimate the amount of loss for each class of portfolio selected on the basis of its product, risk factor, collateral coverage, exposure group etc. Management applies judgment to ensure that the estimate of loss arrived at, on the basis of historical information is appropriately adjusted to reflect the economic conditions and portfolio factors as at the reporting date. The loss rates are regularly reviewed against actual loss experience.

In assessing the need for collective impairment, management considers factors such as credit quality (for example, loan to collateral ratio, level of restructured performing loans), portfolio size, concentrations and economic factors.

To estimate the required allowance, assumptions are made to define how inherent losses are modeled and to determine the required input parameters, based on historical experience and

current economic conditions. The accuracy of the provision depends on the model assumptions and parameters used in determining the collective provision.

Loan loss provisions in respect of loans and advances are based on management's assessment of degree of impairment of the loans and advances, subject to the minimum provisioning level prescribed in relevant NRB guidelines.

Impairment of Financial Investments -Available-for-sale

The Microfinance also records impairment charges on available-for-sale equity investments when there has been a significant or prolonged decline in the fair value below their cost along with the historical share price movements, duration and extent up to which the fair value of an investment is less than its cost.

# b. Impairment of Non-Financial Assets

The Microfinance assesses whether there are any indicators of impairment for an asset or a cash generating unit (CGU) at each reporting date or more frequently, if events or changes in circumstances necessitate to do so. This requires the estimation of the 'Value in use' of such individual assets or the CGUs. Estimating 'Value in use' requires the management to make an estimate of the expected future cash flows from the asset or the CGU and also to select a suitable discount rate in order to calculate the present value of the relevant cash flows. This valuation requires the microfinance to make estimates about expected future cash flows and discount rates and hence, they are subject to uncertainty.

# 3.4 Trading Assets

No trading assets were held by the Microfinance during the year.

# 3.5 Property and Equipment

Recognition and Measurement

Property and Equipment are recognized if

- it is probable that future economic benefits associated with the assets will flow to the Financial Institution
- the cost of the asset can be reliably measured.

Microfinance has elected to measure Property, plant and equipment at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset.

Subsequent expenditure is capitalized if it is probable that the future economic benefits from the expenditure will flow to the Microfinance. Ongoing repairs and maintenance to keep the assets in working condition are expensed as incurred. Any gain or loss on disposal of an item of property and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized within other income in profit or loss.

Assets with costs less than NPR 5,000 are charged off on purchase as revenue expenditure, irrespective of their useful life.

#### Capital Work in Progress

Fixed assets under construction and cost of assets not ready for use are shown as capital work in progress.

#### Depreciation

Property and Equipment are depreciated from the date they are available for use on Written Down Value method applying the Depreciation rates as prescribed by Income Tax Act 2058. The rates used for depreciation of assets for the current and comparative period of significant items of property, plant and equipment are as follows:

| Property & Equipment Category | Useful life  |
|-------------------------------|--------------|
| Building                      | 5%           |
| Leasehold Improvement         | Lease Period |
| Furniture & Fixtures          | 25%          |
| Computer and Accessories      | 25%          |
| Vehicles                      | 20%          |
| Office Equipment & Others     | 25%          |

Right of Use Assets has been depreciated over the lease period as explained in note 3.14.

#### **De-recognition**

The residual values, useful lives & depreciation method are reviewed, and adjusted if appropriate, at each reporting date. The value of the assets fully depreciated but continued to be in use is considered not material.

At each reporting date, assets are also assessed for indicators of impairment. In the event that an asset's carrying amount is determined to be greater than its recoverable amount, the asset is written down immediately to the recoverable amount.

The carrying amount of property and equipment shall be derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an item of property and equipment shall be included in the profit or loss when the item is derecognized except for sale & lease back transaction. The gain shall not be classified as revenue.

# 3.6 Goodwill and Intangible Assets

# 3.6.1 Intangible Assets

Intangible assets include software and licenses and are accounted for in accordance with NAS 38

Intangible Assets and NAS 36 Impairment of Assets. They are initially recognized when they are separable or arise from contractual or other legal rights, the cost can be measured reliably and, in the case of intangible assets not acquired in a business combination, where it is probable that future economic benefits attributable to the assets will flow from their use.

Microfinance has elect to measure an item of Intangible Asset at the date of transition to NFRS at its fair value and use that fair value as its deemed cost at that date as per para D5 Appendix D, NFRS-1. Intangible assets are thus stated at cost (which is, in the case of assets acquired in a business combination, the acquisition date fair valueless accumulated amortization and impairment, if any. These are amortized over their useful lives in a manner that reflects the pattern to which they contribute to future cash flows. Intangible assets are reviewed for impairment when there are indications that impairment may have occurred. Determining the estimated useful lives of intangible assets requires an analysis of circumstances. The assessment of whether an asset is exhibiting indicators of impairment as well as the calculation of impairment, which requires the estimation of future cash flows and fair values less costs to sell, also requires the preparation of cash flow forecasts and fair values for assets that may not be regularly bought and sold.

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. Costs associated with the development of software are capitalized where it is probable that it will generate future economic benefits in excess of its cost. Computer software costs are amortized on Written Down Value Method applying 20% as amortization rate. Costs associated with maintaining software are recognized as an expense as incurred.

At each reporting date, these assets are assessed for indicators of impairment. In the event that an asset's carrying amount is determined to be greater than its recoverable amount, the asset is written down immediately.

# 3.7 Investment Property

Land or Land and Building other than those classified as property and equipment and noncurrent assets held for sale under relevant accounting standard are presented under this account head. The Non-banking Assets acquired by the company is classified as assets held for sale and presented under investment property.

Further land which is rented and held for capital appreciation motive is classified as investment property. Non-banking Assets which are not intended to be sold within a period of next one year is also classified as Investment Property. The microfinance does not have any investment property.

# 3.8 Income Tax

# 3.8.1 Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities of Nepal. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in Nepal. The liabilities recognized for the purpose of current Income tax, including fees, penalties are included under this head.

# 3.8.2 Deferred Tax

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the statement of financial position. Deferred income tax is determined using tax rate applicable to the Microfinance as at the reporting date which is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized where it is probable that future taxable profit will be available against which the temporary differences can be utilized. Deferred tax relating to items which are charged or credited directly to equity, is credited or charged directly to equity and is subsequently recognized in the statement of profit or loss together with the deferred gain or loss.

# 3.9 Deposits, Debt Securities issued and Subordinated Liabilities

The deposits held by the microfinance on behalf of its customers are classified as financial liabilities and measured at amortized cost under effective interest method. The microfinance does not have any debt securities issued and subordinated liabilities.

#### 3.10 Provisions

Provisions are recognized in respect of present obligations arising from past events where it is probable that outflow of resources will be required to settle the obligations and they can be reliably estimated.

# 3.11 Revenue Recognition

Revenue is the total amount of income generated by sale of goods or services related to the company's primary operations. Revenue of Microfinance includes the sum total of interest Income and other non-interest income Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Microfinance and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

# 3.11.1 Interest Income

Interest income is recognized in profit or loss using the effective interest rate (EIR) method for all financial assets measured at amortized cost. Interest income is earned on bank balances, investments in money market and capital market instruments, loans and advances, etc.

EIR is the rate that exactly discounts estimated future cash receipts or cash payments through the expected life of the financial asset to the net carrying amount of the financial asset. EIR method is a method of calculating the amortized cost of a financial asset and of allocating the interest income over the relevant period.

Microfinance has adopted the alternative treatment as provided by the Carve Out in NFRS implementation as explained in Note 2.7. Resultant of this the institution has excluded the full amount of upfront loan management fees or commission received on loans and advances in the calculation of effective interest rate.

Accrued Interest has been accounted as per "Guideline on Recognition of Interest Income, 2019" issued by Nepal Rastra Bank, in July 2019. Interest from Loans where contractual payments of principal and/or interest are not more than 3 months are considered as Performing loans and Interest Income has been booked accordingly. Remaining Interest Income, in relation to-

- Non-Performing Loans (In case of Collateral free loan only), where contractual payments of principal and/or interest are in arrear for more than 3 months & no security is present to cover the payment of principal and/or interest;
- Non-Performing Loans (in case of collateral loan only), where contractual payments of principal and/or interest are in arrear for more than 12 months irrespective of the net realizable value of collateral has been treated as Interest Suspense and accounted accordingly.

# 3.11.2 Fee and Commission Income

Fees and commissions are generally recognized on an accrual basis when the service has been provided or significant act performed. Service Fee Income/Expenses are recognized on accrual basis.

#### 3.11.3 Dividend Income

Dividend income is recognized when the Microfinance's right to receive the payment is established, which is generally when the shareholders approve the dividend.

#### 3.11.4 Net Trading Income

Net trading income includes all gains and losses from changes in fair value and the related interest income or expense and dividends, for financial assets and financial liabilities held for trading. No Net trading income is present.

# 3.11.5 Net income from other financial instrument at fair value through Profit or Loss

Gains and losses arising from changes in the fair value of financial instruments designated at fair value through profit or loss are included in the statement of profit or loss in the period in which they arise. Contractual interest income and expense on financial instruments held at fair value through profit or loss is recognized within net interest income.

#### 3.12 Interest Expenses

For all financial instruments measured at amortized cost, interest bearing financial assets classified as available-for-sale and financial instruments designated at FVTPL, interest expense is recorded using the EIR unless it is impracticable.

#### 3.13 Employee Benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees. The remuneration package of Microfinance includes both Short term and long-term benefits and comprises of: salary, allowances, paid leave, accumulated leave, gratuity, provident fund and annual statutory bonus. The Financial Institution applies NAS 19 -"Employee Benefits" in accounting of all employee benefits and recognizes the followings in its financial statements:

- a liability when an employee has provided service in exchange for employee benefits to be paid in the future; and
- an expense when the Financial Institution consumes the economic benefit arising from service provided by an employee in exchange for employee benefits.

#### 3.13.1 Short Term Employee Benefits

Short term employee benefit obligations are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of annual reporting period in which the employees render the related service. This includes all the following items (if payable within 12 months after the end of the reporting period):

- wages, salaries and social security contributions;
- paid annual leave and paid sick leave;
- non-monetary benefits

The Financial Institution shall recognize the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service.

A liability is also recognized for the amount expected to be paid under bonus required by the prevailing Bonus Act, pay the amount as a result of past service provided by the employee and the obligation can be estimated reliably under short term employee benefits.

Also, Provision for bonus has been made at 10% of net profit before such bonus computed as per Regulatory books.

# 3.13.2 Post-Employment Benefit Plan

Post-Employment benefit plan includes followings:

#### i. Defined Contribution Plan

Under defined contribution plans the Financial Institution's legal or constructive obligation is limited to the amount that it agrees to contribute to the fund. Obligations for contributions to defined contribution plans are recognized as personnel expense in profit or loss in the periods during which the related service are rendered by employees. Prepaid contributions are recognized as an asset to the extent that cash refund or reduction in future payments is

available. Contributions to a defined contribution plan being due for more than 12 months after the end of the period in which the employee render the service are discounted at present value. Financial Institution provides "Employees Provident Fund" to the employees entitled to receive benefits under the provident fund act, a defined contribution plan in which both the employee and the Financial Institution contribute monthly at a pre-determined rate (currently, 10% of the basic salary plus grade). Financial Institution does not assume any future liability for provident fund benefits other than its annual contribution.

The Microfinance contributes total of 31% of the staff's Basic Salary plus Grade to Social Security Fund as per Employee Bylaws 2078. Of the 31%, 11% is deducted from the employee's salary and additional 20% is contributed by the Microfinance.

#### Gratuity

The Labor Act 2074 requires payment of minimum Gratuity of at least 8.33% of basic salary to all staff (equal to one-month salary per year) which is in the nature of a defined contribution plan. The Microfinance has been providing gratuity as per its employees' bye-laws and such gratuity amount is included in the amount contributed to Social Security Fund.

#### ii. Defined Benefit Plan

The Financial Institution do not provide Gratuity Plan as defined benefits plan to its employees.

#### 3.13.3 Termination Benefits

Termination benefits are recognized as expense when the Financial Institution is demonstrably committed, without realistic possibility of withdrawal, to a formal plan to provide termination benefits to employees as a result of an offer made to encourage voluntary redundancy. Termination benefits are recognized if the Financial Institutions made an offer for voluntary redundancy. It is probable that the offer will be accepted and the number of acceptances can be measured reliably. If the benefits are payable in more than 12 months after the reporting date, they are discounted to their present value.

# 3.13.40ther Long-Term Benefits

The net obligation of microfinance in respect of other long-term employee benefits, other than gratuity, is the amount of future benefits that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The microfinance has recognized accumulated leave liability other long term employee benefits.

#### Accumulated Leave

The Microfinance provides accumulated leave benefits under its staff byelaw. The Home Leave is accumulated up to 20 days and the sick leave is accumulated up to 45 days. Accumulated leave benefits are treated as long term benefit liability. Accumulated leave obligations are estimated based on the last drawn salary of the employee. The Financial Institution accounts for the liability for accumulated leave.

#### 3.14 Lease Liability

Lease Liability is the present value of the lease payments that are not paid at that date and has been created to comply with NFRS-16. It has been recognized and measured initially at the present value of the lease payments that are not paid at that date. Incremental borrowing rate used during the measurement of lease liability has been considered as per published NRB Rate (Refer Paragraph 2.8).

No lease liability has been calculated for

- Short-term lease
- Leases for which the underlying asset is of low value.

It has been shown as a separate account head under Other Liabilities as retrospectively to each prior reporting period presented applying NAS 8 Accounting Policies, Changes in Accounting Estimates and Errors.

Right-of-use assets is an asset that represents a lessee's right to use an underlying asset for the lease term and has been created to comply with NFRS-16. It has been recognized and measured initially at cost. The cost of ROUA comprises the initial measurement of lease liability, any lease payments made at or before the commencement date and initial direct costs incurred by the lessee.

Further, depreciation requirements in NAS 16 Property, Plant and Equipment have been used in depreciating the right-of-use asset. The lessee shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use assets at the end of the lease term.

No right-of-use of asset has been calculated for

- Short term lease
- Leases for which the underlying asset is of low value.

It has been shown in category Building of Property and equipment as retrospectively to each prior reporting period presented applying NAS 8 Accounting Policies, Changes in Accounting Estimates and Errors.

# 3.15 Share Capital and Reserves

# 3.15.1 Share Capital

Capital instruments issued are classified as equity instruments or financial liabilities in accordance with the substance of the contractual terms of the instruments. Equity instrument is defined as the residual interest in total assets of the microfinance after deducting all its liabilities. Common shares are classified as equity of the microfinance and distributions thereon are presented in statement of changes in equity. Incremental costs directly attributable to the issue of new shares are shown in equity as deduction net of taxes from the proceeds.

Dividends on ordinary shares classified as equity are recognized in equity in the period in which they are declared.

# 3.15.2 Reserves

The reserves include retained earnings and other statutory reserves such as general reserve, Client Protection Fund, CSR reserve and training and development fund.

# a) General Reserve

General reserve is the statutory reserve. In this reserve, 20% of the net profit computed as per regulatory books is set aside as per the Bank and Financial Institutions Act, 2073.
